

SEMINAR

Showcasing 25 years of economic & livestock/pasture results from the...
Bookham Grazing Demonstration

Fertilizer cost effectiveness & soil microbial DNA results from the...
Alternative Fertilizer Project

Thursday 24 August 2017
9:30 am – 2 pm
Bookham Hall, BOOKHAM
RSVP Essential

NSW DPI, South East Local Land Services, Binalong Landcare & Bookham Agricultural Bureau invite you to attend a seminar showcasing:

- 25 years of economic, livestock & pasture results collected on the Bookham Grazing Demonstration (1992 - 2017).
- Fertilizer cost effectiveness results two years following the cessation of fertilizer application on the Binalong/Bookham Native Pasture & Alternative Fertilizer project.
- Soil microbial diversity findings based on DNA analysis of soil collected in the sixth year (2014) of the project under the various fertilizer treatments.

Speakers include Phil Graham, NSW DPI and Fiona Leech, South East Local Land Services.

Cost	Free – Morning Tea & Lunch provided
RSVP by 21st August	RSVP Essential for catering purposes by Monday 21st August 2017 RSVP / Further information to Vicki Saville. Ph. 48 243 700 Email: vicki.saville@dpi.nsw.gov.au
