

Carbon Farming

A free seminar for landholders

Where: Queanbeyan Roos Club
Corner Stuart St & Richard Avenue

Date: Friday 15 June, 2012

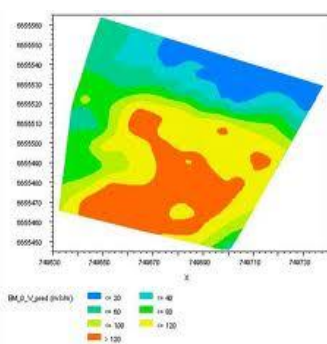

Time: 9.00 am – 12:30 pm

Join us for information and discussion with the following speakers:

David Eyre (General Manager, Research & Development, NSW Farmers): The Clean Energy Future Plan and Carbon Farming Initiative from an agricultural perspective. How carbon farming works, overview of methodologies including soil carbon and Nitrous Oxide, measurement and monitoring, funding for innovation, practical steps for getting involved and agronomic considerations.

Jason Cummings (CEO, Greening Australia Capital Region): Designing vegetation-based carbon schemes, the Environmental Plantings Methodology, opportunities for land rehabilitation, land allocation issues, and practical examples.

Peter Holding (Winter crops and sheep farmer, Harden): A farmer's perspective on the carbon market. Experience with techniques including direct drilling, controlled grazing, measuring soil moisture, weather forecasting tools and nutrient management.

Please RSVP by 8 June for catering purposes.

Call David Banham on (02) 8251 1847 or email banhamd@nswfarmers.org.au.

This seminar is delivered through the Regional Landcare Facilitator program. The event and all associated material is supported by funding from the Australian Government Department of Agriculture, Fisheries and Forestry as part of the Carbon Farming Initiative Communications Program.

Regional Landcare Facilitator
