

# CSIRO are coming to Humula

## 'CHECKING FOR CHANGE' WORKSHOP

### WHAT IS 'CHECKING FOR CHANGE'?

CSIRO has developed a practical guide to help landholders check if sites they have newly managed for conservation are on track to improve.

You do not need to be able to identify any plants and animals to get involved!

### IT'S EASY AND SIMPLE TO DO

Come along and learn to simply, cheaply and easily assess how a change in your management has impacted on your native vegetation.

The workshop will teach you skills including: the assessment of ground cover; measuring litter depth and breakdown; and counting plant types (you don't need to identify each type!)

### JOIN CSIRO SCIENTIST JACQUI STOL TO LEARN HOW TO ASSESS, MONITOR & IMPROVE NATIVE VEGETATION ON YOUR PROPERTY

**WEDNESDAY 8 FEBRUARY 2017**  
9.30 am - 12 noon  
(Lunch provided)

**WHERE: Lawrie & Nicole Sykes 'Miowera', Eight Mile Rd HUMULA**

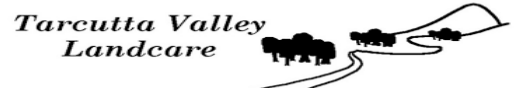

**WHAT TO BRING: Hat, comfortable walking shoes & water bottle**

**RSVP by Wednesday 1 February 17 (for catering) to: Maddy (m) 0429 458 717 e:mgorham@mli.org.au or Jacinta (m) 0431 953 778 e:jchristie@mli.org.au**
