

Carbon farming and your business

Soil Health – How to build soil carbon

Paddock Walk and Talk on the “can do’s” of building soil carbon

Morning in the shed & after lunch in the paddock with agronomist - Gwyn Jones

Mr Jones is an independent agronomist with 18 years of experience; he has completed over 100 presentations and field days for the North East CMA on soil carbon and sustainable farming issues. Gwyn has consulted for three National Landcare Programmes with Lime trials, Rock Phosphate trials and Biological trials.

The day will discuss:

- Integrating soil carbon management into your farm planning
- The ABC of soil carbon management
- The influence of farming systems on carbon
- Storing carbon through changes in land management practices

Monday
16th June
