

Mulloon Creek - Rehydration Field Day and Expert Panel

9 years on - Mulloon Creek Natural Farm's demonstration of Peter Andrews' Natural Sequence Farming is an inspiring example of regenerative landcare and floodplain rehydration.

Greatly Improved:

- Productivity
- Water quality
- Stream flow
- Biodiversity
- Resilience

Before

After

Mulloon Creek Natural Farms - Bungendore, NSW
Bookings Essential:
www.themullooninstitute.org
 donna@themullooninstitute.org / 0427 075 397
 Cost: \$25 per adult / Children 6 - 12 yrs: \$12.50 / Under 6 Free

Join Peter Andrews, Tony Coote, Gary Nairn, Martin Royds, the MI team and reputable scientists for a fully catered all-day event including guided tour and interactive panel discussion.

Discuss the big issues (regulations, scientific uncertainty, climate change and food security?)
 How can the Mulloon experience be transferred into other catchments?
 We introduce The Mulloon Community Landscape Rehydration Project (MCLRP), which includes landowners covering 13,000ha in the Mulloon catchment and over 40km of creek.
 MCLRP represents a major scaling up of the original Natural Sequence Farming Demonstration

SUNDAY 8th NOVEMBER 2015 9.30 - 4pm
