

Attention: Farmers and owners of
CATTLE

WAGE WAR ON WORMS!

MURRUMBATEMAN: Thursday, 11 February 2016 – 10.00 am to 2.30 pm

**A FREE day of information, discussions and demonstrations
with Dr Stephen Love, NSW Department of Primary Industries' expert on internal
parasites of livestock**

Dr. Love has had decades of experience with managing worms in livestock: in private practice, as a District Veterinarian, as a veterinary pathologist and for the last 18 years as DPI's specialist in parasitology. He is one of the people behind "Wormboss", Australia's best source of information on sheep worm control
