# New & Emerging Weeds Information Day

**Wednesday 4<sup>th</sup> May, 2016**

South East Local Land Services combined with Southern Slopes Noxious Plants County Council, are conducting a half day information session on New & Emerging Weeds occurring across our region.

**Weeds to be discussed include:**

**African Lovegrass**

**Coolatai Grass**

**Chilean Needle Grass**

**Serrated Tussock**

**Spiny Burr Grass**

If you have any weed specimens to be identified bring them along on the day. However please ensure that these plants are fully contained to prevent their further spread.
