

## BIRDS, PLANTS + BIODIVERSITY

Come along to our Bird and Wildflower Walk at the Rock Nature Reserve. Ian Davidson, renowned ecologist from Regeneration Solutions, will take us on a guided tour to learn about the birds, plants and reptiles that live in our area.

Participants will leave with an understanding of where birds and animals inhabit and the skills to recognise existing or potential habitat on their own property.

All ages welcome!

## ANNUAL GENERAL MEETING

A BBQ Dinner and the Eastern Riverina Landcare Network AGM will follow at the Rock picnic area.
