

WHAT OPPORTUNITIES ARE IN THE CARBON FARMING INITIATIVE?

An Introduction To Carbon Farming & Trading

1-DAY WORKSHOP
FarmReady Approved*

***65% reimbursed for eligible farmers - ends June 2012**

What Is Carbon Farming? Why is it so important for the future of your community?
What is the Carbon Farming Initiative? What does it mean for you? How will it change the way you farm? What activities are covered? What new opportunities for additional farm-based revenue are likely? What risks are involved? Farm emissions: what are they; how can they be reduced? Decision-making tools for Carbon Farmers.

Soil Carbon – What is it?
How does it benefit agriculture? Soil health, nutrition, production, and water efficiency... Planning tools and options to maximising carbon soil sequestration.
Growing Soil Carbon: the role of the farmer, their animals, their plants, and the microbial communities.
Trading Farm-Based Offsets: What markets are available for Australian farmers?
